

**LOVE  
YOUR FEET  
MORE.**

by Honeywell

**PRODUCT CATALOGUE**

## SOLE FEATURES

### Electrical Resistant

Electrical Hazard (EH) Protection reduces the danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18

### Antistatic

Minimises the build up of electrostatic charges and provides protection against the risk of spark ignition for such hazards as flammable materials and gases.

### HYDROstop®

Offers a 3 year guarantee against the effects of hydrolysis and microbiotic attack on the sole.

**Heat resistant sole (266° F)**

**Heat resistant sole (572° F)**

**Abrasion resistant sole**

**Sole resistant to organic oils and fats**

**Sole resistant to mineral oils and acids**

**Cut resistant sole**

## SPECIAL FEATURES

### Metatarsal Protection

Provides increased protection against the risk of impact and crush injuries. Metatarsal guards coupled with safety toe caps offer complete fore foot protection.

### Sole Penetration Protection

Offers the reduced risk of sharp objects penetrating the sole and entering the foot.

### SAFETYcell® Protection

Fully integrated protective shell offers enhanced abrasion and cut resistance from harsh working conditions.

**Water Resistant leather**

**Waterproof footwear**

**Toe Bumper**

**HEELguard**

**Hi-Vis Reflective Safety Trim**

## COMFORT FEATURES

### COMFORTcushion® Impact Absorption

Provides superior cushioning and shock absorption helping to reduce foot, leg and back fatigue.

### NANOlite® Footbed

Massages feet as you walk, offering ultimate comfort and enhancing blood flow to reduce fatigue.

### NATUREform® wide profile Type 1 safety toe cap

Offers a wide profile shape for greater comfort and ensuring toes are not in contact with the toe cap.

### Antimicrobial Technology

Revolutionary anti-bacterial solution provides protection against odour, staining and deterioration caused by bacteria, fungus and other micro-organisms.

### SOFTstride® Contour Comfort Support

Low density urethane foam contours to the individual foot shape to provide ultimate comfort and support.

## TOE CAP FEATURES

### Steel Safety Toe Cap

Type 1 Steel toe cap offers protection against drop and crush injuries. Developed to withstand a force of 200 joules.

### Composite Safety Toe Cap

Non-Metallic Type 1 toe cap protection against drop and crush injuries. Lightweight and airport friendly. Developed to withstand a force of 200 joules.

## SLIP RESISTANCE

### Slip Resistant Sole

The following abbreviations provide information about slip resistance ratings:

- SRA:** Slip resistance tested on ceramic tile floor with sodium lauryl sulphate (SLS) solution.
- SRB:** Slip resistance tested on steel floor with glycerol.
- SRC:** Slip resistance tested on both ceramic tile floor with SLS solution and steel floor with glycerol.

## 45 SERIES COMFORT TECHNOLOGY

**COMFORTcushion®**  
Impact Absorption

**NATUREform®**  
wide profile Type 1 safety toe cap

Water Resistant leather

Non-Metallic Composite Toecap

**SOFTstride®**  
Contour Comfort Support

Antimicrobial Technology

### Odorban<sup>TM</sup> Control Technology

The Oliver Comfort System footbed now includes Odorban<sup>TM</sup> Control Technology for greater comfort. This anti microbial solution controls the bacteria that cause odour, stains and product deterioration. The new comfort footbed also has perforated air channels to promote natural airflow to the feet and help maintain freshness.

### COMFORTcushion® Impact Absorption System

**COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot by providing superior cushioning and shock absorption... reducing foot, leg, and lower back fatigue.

### Oliver SOFTstride® Comfort System

Oliver **SOFTstride®** Comfort System works to soften and absorb the impact on the foot stride after stride. A layer of open cell low density urethane foam built into the insole contours to the individual foot shape to provide ultimate comfort and support. The unique Oliver **SOFTstride®** gives added reassurance to help you get through those long hours on your feet.

### Non Metallic Composite Toe Cap Technology

Oliver has pioneered a new innovative Hi-Impact Non-Metallic Composite type 1 toe cap which is more than 40% lighter than traditional steel toe caps and still exceeds the Australian and New Zealand Standard AS/NZS2210.3.

## AT45 SERIES

**45-632Z**

### 150MM WHEAT ZIP SIDED BOOT

- Water resistant nubuck leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic
- Convenient side zip

**Sizes:** 5 - 14, 6½ - 10½

EXTRA FEATURES:

**45-645Z**

### 150MM BLACK ZIP SIDED BOOT

- Water resistant full grain leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic
- Convenient side zip

**Sizes:** 5 - 14, 6½ - 10½

EXTRA FEATURES:

**45-637**

### 150MM BROWN LACE UP BOOT

- Water resistant pull up leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

**Sizes:** 5 - 14, 6½ - 10½

**45-632**

### 150MM WHEAT LACE UP BOOT

- Water resistant nubuck leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

**Sizes:** 5 - 14, 6½ - 10½

**45-645**

### 150MM BLACK LACE UP BOOT

- Water resistant full grain leather
- Full lining and comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

**Sizes:** 5 - 14, 6½ - 10½

**45-627**

### BROWN ELASTIC SIDED BOOT

- Water resistant pull up leather
- Comfort footbed infused with **Odorban™** Control Technology
- Fully non-metallic

**Sizes:** 5 - 14, 6½ - 10½

**COMFORT GUARANTEE†**

† Must produce dated receipt and guarantee tag

Try a pair of correctly fitted Oliver AT45 Boots for 30 days and, if you are not completely satisfied, return them to the specialist dealer you bought them from for exchange or refund. †

**All AT45 styles are airport friendly**

## SOLING TECHNOLOGY

### AT's All Terrain TPU Soling Technology

- Lightweight, shock absorbing low density PU (Polyurethane) midsole which cushions the foot on impact to provide unmatched comfort and help reduce foot, leg and lower back fatigue.
- High density hard-wearing TPU (Thermo Plastic Urethane) outsole provides superior grip and abrasion resistance.
- Heat resistant outsole to temperatures of 130° Celsius.
- Electrical Hazard (EH) Protection. Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18.
- Resistant to most oils, acids and chemicals.
- Superior resistance to abrasion, splitting and cracking.
- Superior slip resistance, rated SRB.
- Will not mark floors.

# 55 SERIES | DUAL DENSITY PU / RUBBER FOOTWEAR

EN ISO 20345:2011  
ASTM F2413-18

® Kevlar 2013 DuPont

## 55 SERIES COMFORT TECHNOLOGY

**NANOlite® Technology**

The Oliver Comfort System now has a unique **NANOlite®** footbed for greater comfort and well-being. The gently raised surface of the sole massages your feet as you walk, promoting greater blood flow to help reduce fatigue. Plus, a perforated foam air control layer enhances air circulation, reducing odour.

**COMFORTcushion® Impact Absorption System**

Oliver's unique **COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot, providing superior cushioning and shock absorption at the heel. This constant impact absorption helps reduce foot, leg and lower back fatigue.

**NATUREform® Type 1 Toe Cap**

Oliver **NATUREform®** toe caps have a wide profile shape to suit your foot and are padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform®** caps are licensed to the Australian and New Zealand Standard AS/NZS 2210.3.

**Oliver SOFTstride® Comfort System**

Oliver **SOFTstride®** Comfort System works to soften and absorb the impact on the foot stride after stride. A layer of open cell low density urethane foam built into the insole contours to the individual foot shape to provide ultimate comfort and support. The unique Oliver **SOFTstride®** gives added reassurance to help you get through those long hours on your feet.

## METATARSAL COMFORT & SOLING TECHNOLOGY

METATARSAL  
RANGE  
EXTRA  
FEATURES:

### PORON® XRD™ Metatarsal Guard - Extreme Impact Protection.

**PORON® XRD™** is not only comfortable, flexible and lightweight but frees you of rigid, bulky and constricting padding. On impact, the **PORON® XRD™** high performance molecules create a unique protective shield that absorbs up to 90% of the most intense force\* - hit after hit.

\*as measured according to ASTM-F1614-C  
**PORON®** and **XRD™** are licensed trademarks of Rogers Corporation

### PORON® XRD™ REVOLUTIONARY METATARSAL PROTECTION

### NANOlite® Technology

The Oliver Comfort System now has a unique **NANOlite®** footbed for greater comfort and well-being. The gently raised surface of the sole massages your feet as you walk, promoting greater blood flow to help reduce fatigue. Plus, a perforated foam air control layer enhances air circulation, reducing odour.

### COMFORTcushion® Impact Absorption System

Oliver's unique **COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot, providing superior cushioning and shock absorption at the heel. This constant impact absorption helps reduce foot, leg and lower back fatigue.

### NATUREform® Type 1 Toe Cap

Oliver **NATUREform®** toe caps have a wide profile shape to suit your foot and are padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform®** caps are licensed to the Australian and New Zealand Standard AS/NZS 2210.3.

### COMFORT GUARANTEE †

† Must produce dated receipt and guarantee tag

### AT's All Terrain Dual Density PU/ Rubber Soling technology

The AT's Dual Density PU / Rubber Soling Technology combines a soft shock absorbing low density PU midsole with a high density hard wearing nitrile rubber outsole. The long wearing All Terrain rubber outsole is designed for superior grip and durability.

### AT's Rubber soling technology offers:

- Heat resistant outsole to temperatures of 300° Celsius.
- Electrical Hazard (EH) Protection. Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18
- Resistant to mineral oils, acids, alkalies, animal fats and oils.
- Superior resistance to abrasion and cutting.
- Excellent slip resistance, rated SRC.

ASTM F2413-18

### 65-791 350MM BLACK LACE UP MINING BOOT

- 100% waterproof premium full grain leather
- New **Y-Guard** TPU ankle protectors provides impact resistance
- Flush, integrated zip contours to the boot
- Heavy Duty KEVLAR®<sup>1</sup> stitching on critical wear seams
- Internal **PORON® XRD** metatarsal guard
- **Q-flex®** non metallic penetration protection insole
- Reflective panel above the heel increases visibility

Sizes: 4 - 16, 6½ - 12½

REPLACEMENT  
ZIP CODE: ZIP791

EXTRA FEATURES:

### 65-493 240MM BROWN PULL ON RIGGERS BOOT

- 100% waterproof premium full grain leather
- Heavy duty coated leather for ultimate durability
- Internal **PORON® XRD** metatarsal guard
- **Q-flex®** non metallic penetration protection insole

Sizes: 4 - 16, 6½ - 12½

EXTRA FEATURES:

### 65-490 150MM BROWN LACE UP BOOT

- 100% waterproof CORDURA® and full grain leather
- High abrasion and chemical resistance
- New and improved **SAFETYcell®**
- **Q-flex®** non metallic penetration protection insole
- Free running, quick-adjust lacing system

Sizes: 4 - 16, 6½ - 12½

## 65 SERIES COMFORT TECHNOLOGY

#### NANOlite® Technology

Improved **NANOlite®** footbed features moisture wicking characteristics and improved softer materials which provide additional cushioning and comfort. Increased perforations enable better breathability and the 3-layer structure promotes lower leg circulation reducing worker fatigue.

#### NATUREform® Type 1 Toe Cap

Oliver **NATUREform®** toe caps have a wide profile shape to suit your foot and are padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform®** caps are licensed to the Australian and New Zealand Standard AS/NZS 2210.3.

#### COMFORTcushion® Impact Absorption System

Oliver's unique **COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot, providing superior cushioning and shock absorption at the heel. This constant impact absorption helps reduce foot, leg and lower back fatigue.

#### PORON® XRD™ Metatarsal Guard

**PORON® XRD** is not only comfortable, flexible and lightweight but frees you of rigid, bulky and constricting padding. On impact, the **PORON® XRD** high performance molecules create a unique protective shield that absorbs up to 90% of the most intense force\* - hit after hit.

\*as measured according to ASTM-F1614-C

## SOLING TECHNOLOGY

#### AT's All Terrain Dual Density PU/Rubber Soling technology

- Lightweight, shock absorbing low density PU (Polyurethane) midsole which cushions the foot on impact to provide unmatched comfort and help reduce foot, leg and lower back fatigue.
- All Terrain nitrile rubber outsole with new deeper tread profile and self-cleaning design for superior grip and durability.
- Heat resistant outsole to temperatures of 300° Celsius.
- Anti Static minimises the build up of electrostatic activity and provides protection against the risk of spark ignition hazards including flammable materials and gases.
- Resistant to mineral oils, acids, alkalis, animal fats and oils.
- Superior resistance to abrasion and cutting.
- Excellent slip resistance, rated SRC.

## A PROUD TRADITION - FOUNDED 1887

Oliver Footwear, Australia's leading Safety Footwear Manufacturer owes its origins to gold mining in the Victorian provincial city of Ballarat.

Our founder James Oliver, a boot-maker by trade, came to the goldfields of Ballarat, then amongst the richest alluvial and underground mining fields in the world, in the mid 1800's. His quest for the elusive nuggets was unsuccessful, so he returned to the trade of boot-making which he had learned in the U.K.

Established as the business of Oliver & Stevens, the new venture commenced producing tough and durable boots for miners and farmers in 1887.

The same entrepreneurial streak which marked the establishment of the business in 1887 continues today with Oliver Footwear building on its commitment to footwear product design in Ballarat, Australia.

Product research and development to address the needs and demands of tough workplace safety environments will always be a central part of our company philosophy.

1938 - Jack Oliver's 60 Bridge Street Store.  
This photograph was taken during Ballarat's centenary celebrations.

**LOVE  
YOUR FEET  
MORE.**

Ongoing investment in manufacturing technology, business systems and people ensures that Oliver continues to adopt world's best practice in all parts of the business.

Oliver is now part of Honeywell Industrial Safety which offers not just the world's most comprehensive lines of Personal Protective Solutions but the most respected brands that make workers embrace safety on their own.

### 22 Series PVC / Nitrile Soling Technology

The WB 22 series sole consists of a hard wearing heavy duty PVC / Nitrile sole that offers extra deep tread for greater stability and grip on uneven and loose surfaces.

#### WB's 22 Series PVC / Nitrile soling technology offers:

- Heat resistant to temperatures of 130° Celsius.
- Excellent slip resistance, rated SRC.
- Resistant to solvents, mild acids, alkalis, some chemicals, oils and fats.
- Will not mark floors.
- Electrical Hazard (EH) Protection. Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18.

# SERIES COMFORT TECHNOLOGY

COMFORTcushion Impact Absorption

NATUREform wide profile Type 1 safety toe cap

Steel Safety Toe Cap

Waterproof footwear

Hi-Vis Reflective Safety Trim

NANOlite footbed

Metatarsal protection

### NANOlite® Technology

The Oliver Comfort System now has a unique **NANOlite**® footbed for greater comfort and well-being. The gently raised surface of the sole massages your feet as you walk, promoting greater blood flow to help reduce fatigue. Plus, a perforated foam air control layer enhances air circulation, reducing odour.

### NATUREform® Type 1 Toe Cap

Oliver **NATUREform**® toe caps have a wide profile shape to suit your foot and ensure toes are comfortable and not in contact with the cap. Oliver boots with **NATUREform**® caps are licensed to the Australian and New Zealand Standard AS/NZS 2210.3.

### METprotect® Metatarsal Protection

Oliver patented **METprotect**® metatarsal protection offers revolutionary inbuilt design technology to protect the impact strike zone. The enhanced design offers comfort and flexibility not afforded by traditional metatarsal protection materials.

### STEELflex® Protection System.

Steel midsole protection reduces the risk of sharp objects penetrating the sole and entering the foot. A thin protective shield is inserted in the midsole providing safety while retaining comfort and flexibility of the sole. Meets requirements of Australian and New Zealand Standard AS/NZS 2210.3

† Must produce dated receipt and guarantee tag

## SOLING TECHNOLOGY

### COMFORTcushion® Impact Absorption System

Oliver's unique **COMFORTcushion®** uses a combination of cellular urethane and **PORON®** performance cushioning to protect the heel and ball of the foot, providing superior cushioning and shock absorption at the heel. This constant impact absorption helps reduce foot, leg and lower back fatigue.

### Non Metallic Composite Toe Cap Technology

Oliver has pioneered a new innovative Hi-Impact Non-Metallic Composite type 1 toe cap which is more than 40% lighter than traditional steel toe caps and still exceeds the Australian and New Zealand Standard AS/NZS2210.3.

### ST's TPU Soling Technology

- Lightweight, shock absorbing low density PU (Polyurethane) midsole which cushions the foot on impact to provide unmatched comfort and help reduce foot, leg and lower back fatigue.
- High density hard-wearing TPU (Thermo Plastic Urethane) outsole provides superior grip and abrasion resistance.
- Heat resistant outsole to temperatures of 130° Celsius.
- Anti Static minimises the build up of electrostatic activity and provides protection against the risk of spark ignition hazards including flammable materials and gases.
- Resistant to most oils, acids and chemicals.
- Superior resistance to abrasion, splitting and cracking.
- Excellent slip resistance, rated SRC.
- Will not mark floors.

### Odorban™ Control Technology

The Oliver Comfort System footbed now includes Odorban<sup>1</sup> Control Technology for greater comfort. This anti microbial solution controls the bacteria that cause odour, stains and product deterioration. The new comfort footbed also has perforated air channels to promote natural airflow to the feet and help maintain freshness.

### NATUREform® Type 1 Toe Cap

Oliver NATUREform® toe caps have a wide profile shape to suit your foot and are padded with a latex cushion liner to ensure toes are comfortable and not in contact with the cap. Oliver boots with NATUREform® caps are licensed to the Australian and New Zealand Standard AS/NZS 2210.3.

### Oliver SOFTstride® Comfort System

Oliver SOFTstride® Comfort System works to soften and absorb the impact on the foot stride after stride. A layer of open cell low density urethane foam built into the insole contours to the individual foot shape to provide ultimate comfort and support. The unique Oliver SOFTstride® gives added reassurance to help you get through those long hours on your feet.

## MANUFACTURER'S WARRANTY

Oliver stands for quality, comfort and protection. That's why our safety footwear is backed by a 6 month Manufacturers warranty... the Oliver Promise. Oliver leather safety shoes and boots are warranted for six (6) months from the date of purchase against defective workmanship and/or materials when used under normal conditions for the purpose intended. The warranty is void if in the opinion of Oliver that the product has been misused or subject to excessive wear and tear including exposure to chemicals, cement, lime or heat

if the footwear has not been designed to be used in these environments.

As a requirement of this warranty the purchaser must present the footwear and provide evidence of purchase. Please return the footwear to the place of purchase.

The footwear will then be returned to Oliver for inspection by an authorized Oliver employee. If the footwear is defective they will be repaired and returned where possible, otherwise replacement footwear will be provided by Oliver.

This warranty is in addition to, and does not limit consumer's statutory rights.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

## THE OLIVER PROMISE

### ✓ COMFORT

Oliver guarantee total comfort. From our energy absorbing soling technology to removable **COMFORTcushion®** PORON/PU footbeds and leather uppers, Oliver delivers superior comfort with every step you take.

### ✓ PERFORMANCE

Oliver provides total-foot support and superior stability which not only keeps you safe at work but comfortable all day long.

### ✓ DURABILITY

Oliver boots and shoes are built to last with tough, quality materials and a construction that protects your feet from hazards all year round.
